Dear Sir:

With the control upgrades on Devon units 11-14 coming to an end, I would like to take this opportunity to commend the three individuals from McPhee, Mark Spodnik, John Roman and Rich Dombrowski, which were assigned to these projects. Their diligence and attention to detail played an integral role in the (3) units, to date, coming in ahead of schedule with very few wiring issues on what were very complex projects.

Due to their performance, going forward, I look forward to a long relationship with McPhee Electric for providing electrical assistance when needed here at Devon Station.

Best regards
