

Mohegan Sun

McPhee Electric, Ltd. has an extensive relationship Mohegan Tribal Gaming Authority providing electrical construction and other services to the Uncasville, CT casino. The Mohegan Tribal Gaming Authority is an entity of the Mohegan Tribe of Indians of Connecticut, a federally recognized Indian tribe with an approximately 405-acre reservation situated in southeastern Connecticut. McPhee acted as the electrical trades manager for the Phase II expansion which involved constructing a new 800,000 sq. ft. casino, an arena, and 38-story hotel. The Mohegan Sun Phase II project doubled the size of the campus and completely overhauled the electrical infrastructure based on an increased load of 40 MW from the existing 12 MW. The complex required new public utility company circuits and substations to be constructed, while keeping the facility operating 24/7. McPhee worked alongside Native Sons, Ltd., a Native American Contractor, for this project and continues to work in partnership with them at Mohegan.

In 2007, McPhee completed various aspects of electrical services to the new section of the casino that resembles an Asian marketplace offering Pai Gow Poker, Sic Bo, and Mini Baccarat in an authentic Asian gaming

environment. The expansion includes a 4,000 sq. ft. food court, an expanded bus lobby, Hong Kong food outlets, and Asian games.

McPhee continues to provide electrical services to Mohegan Sun on a daily basis. Continued preventive maintenance services are provided through PowerHawke, Inc.
